Science and Engineering Outreach Opportunities

Join Seattle AWIS to hear more about local volunteer opportunities!

GEMS - Girls in Engineering, Math, and Science (GEMS) is an outreach program for girls attending Seattle public middle schools and is funded by Seattle AWIS. GEMS is coordinated entirely by volunteers who work to encourage girls to maintain and broaden their interest in science by providing mentoring, hands-on activities, field trips, and information pertaining to a variety of scientific fields and careers.

SMARTGirls - SMARTGirls is a STEM outreach program to Seattle Public Middle Schools. Local scientist, college, high school and community volunteers work with a teacher to provide engaging-hands on weekly after school activities to under-represented students.

Seattle Expanding Your Horizons - SEYH is a one-day conference that offers over 400 girls in 6th-8th grades career exploration through hands-on workshops in a wide range of STEM fields. Our entire event is planned and executed by volunteers - professional women scientists and supporters of gender equity in technical professions.

Brain Awareness Week - BAW is an international effort, originally organized by the Dana Alliance for Brain Initiatives and the Society for Neuroscience to promote the public and personal benefits of brain research. At the University of Washington, BAW is celebrated with an open house for pre-college students, visits to local classrooms and displays at libraries and bookstores.

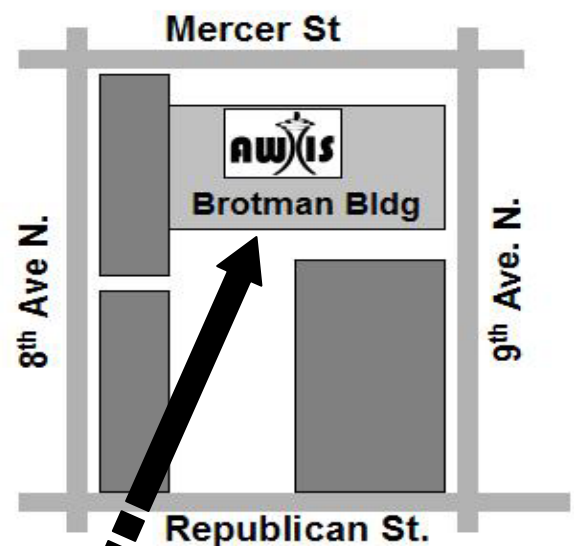

NWABR - NWABR is a non-profit science education organization that writes middle and high school science curricula, puts on education conferences for researchers and presents science outreach programs to the community.

EdLab - The EdLab Group is a private non-profit dedicated to educational innovation. We host many projects, such as summer camps and after-school programs that promote gender equity in science and technology.

SCHEDULE

6:00 - 6:15 pm **Networking & Refreshments**
6:15 - 6:45 pm **Introductions and Presentation**
6:45 - 7:30 pm **Networking & Refreshments**

**Free and open to members and non-members*

Please enter through the plaza
